## OUR STANDARDS

# Quality & Craftsmanship

### Responsible Sourcing

We utilize exclusively FSC-certified hardwoods. Each piece undergoes rigorous moisture-controlled seasoning to prevent warping and ensure long-term stability.

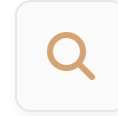

### Precision & Hand-Finish

Modern CNC machining ensures tight tolerances, while our skilled artisans hand-sand every curve to create ergonomic, perfectly balanced forms.

### Food Safety First

All products are treated with non-toxic, food-grade mineral oils and beeswax. We ensure smooth, splinter-free edges to protect both your hands and your cookware.

### Rigorous QC

Our multi-stage inspection process checks fit, finish, and durability. Every batch is validated for resistance to water absorption and structural integrity.

*“True quality is invisible; it is felt in the balance of the tool and the smoothness of the finish.”*

THE RECYCLEX STANDARD

### Commitment to Sustainability

Our zero-waste manufacturing approach ensures every resource is valued.

We ensure seamless global trade with scalable production and robust logistics support.

- **Terms:** FOB, CIF, EXW capabilities.
- **Documentation:** Full export compliance & certification support.
- **Lead Times:** Predictable manufacturing schedules.

*"Bridging traditional craftsmanship with global supply chain efficiency."*

# Why Choose RECYCLEX

---

## Design-Led Collections

We blend contemporary forms with the timeless appeal of wood, creating products that stand out in modern kitchens.

## Consistent Quality

Experience peace of mind with our rigorous QC, ensuring tight tolerances and repeatable finishes in every batch.

## Sustainable Materials

Commit to the planet with responsibly sourced hardwoods and eco-conscious manufacturing processes.

## Reliable Production

Count on us for scalable manufacturing, on-time delivery, and dependable global fulfillment services.

## Customization & Support

Partner with experts offering full OEM/ODM capabilities, private labeling, and responsive account management.

# In-House Personal Design Expertise

---

Our studio is supported by an exclusive in-house personal designer, offering clients bespoke design solutions, meticulous attention to detail, and seamless collaboration from concept through execution.

## What This Means for You

- Personalized design solutions tailored to your business
- Faster turnaround times with direct collaboration
- Consistent branding and design quality
- Confidential, secure handling of all creative assets
- End-to-end support from concept to completion
- Whether you need branding, visual assets, or ongoing design support, our in-house designer ensures a professional, cohesive, and high-quality outcome for every project.

# Find Our Wooden Handicrafts on Trusted Marketplaces

---

We're proud to offer our handcrafted wooden kitchenware and tableware on some of the world's most trusted online marketplaces. Whether you prefer shopping on Amazon, Etsy, or Walmart, you can find the same quality, craftsmanship, and care in every product we make.

Each piece is crafted from natural wood, designed for everyday use, and finished with food-safe materials — perfect for both modern and traditional kitchens.

## NEXT STEPS

# Let's Work Together

Thank you for considering RECYCLEX. We are ready to partner with you to bring premium, sustainable wooden craftsmanship to your market.
